Treats Five Gallons  
Prod. No. 37001  
12 Bottles/Case—Min 2 Cs.

### What is Bug Juice?

Bug Juice is a remarkable insecticide paint additive designed to eliminate crawling & flying insects on *interior & exterior* surfaces.

### Where can Bug Juice be Applied?

Bug Juice can be applied on most interior and exterior surfaces, including kitchens and pantries.

### Does Bug Juice Repel Bugs?

No, Bug Juice does NOT repel insects—*it kills them!* It is a contact pesticide and it begins to work after an insect makes contact with the treated surface.

### Will it affect the appearance of the finish?

Bug Juice will not affect the color or drying time of the coating it is mixed with.

### What maintenance is involved?

It is recommended that you hose off the treated surface with water twice a year. This provides a clean surface for insects to land on.

### Does Bug Juice have an odor? No.

**How long does Bug Juice last?** Bug Juice will last for the life of the coating that it is mixed with.
